---

What better way to protect your baby than to use all natural baby bath products. No harsh alcohol or chemicals. Know exactly what goes on your baby's skin because you made it!

### **Oil Cap ( cradle cap) remover**

#### **Ingredients:**

- 1 Tbs Virgin Olive Oil OR 1 Tbs Mineral Oil

#### **Instructions:**

Apply on the scalp or eyebrows using your fingertips and let sit for at least one hour. Once the scales are softened, use a fine-toothed baby comb or soft-bristled baby brush and gently scrape off the cradle cap. Once the area is clear, wash baby's hair as normal using a mild baby shampoo.
