What better way to protect your baby than to use all natural powder products. Know exactly what goes on your baby's skin because you made it!

Basic Baby Powder

Ingredients:

100% pure cornstarch

Instructions:

Dust when needed, better for your baby's lungs. You can keep it in it's original container or in a small Glad container.

Lavender Baby Powder

Ingredients:

- 1/2 pound cornstarch
- 1/4 teaspoon lavender essential oil

Instructions:

Place cornstarch in a self-sealing plastic bag and add the essential oil drop by drop. Tightly close the bag and shake it to distribute the oil, breaking up any clumps through the bag. Let stand 4-5 days to distribute the essential oil. Use as needed.
