## Bathroom Cleaner

### Ingredients:

- Vinegar
- Dawn

### Instructions:

Fill a spray bottle with 1/2 cup Dawn and as much vinegar as the bottle holds.

For really tough bathroom surfaces such as shower walls, pump up the cleaning power by removing the sprayer element and heating the solution in the microwave until barely hot. Spray shower walls with the warmed generously, allow to stand for 10 to 15 minutes, then scrub and rinse. The heat helps soften stubborn soap scum and loosens hard water deposits.

## Toilet cleaner

### Ingredients:

- 1/4 cup baking soda
- 1/4 cup Dawn
- 1/4 cup water

### Instructions:

## **Bathroom Cleaner**
