LAUNDRY SOFTENER

Recipe #1

- 2 Cups White Vinegar
- 2 Cups Baking Soda
- 4 Cups Water

Combine slowly and carefully over sink. The baking soda and vinegar will fizz. Pour into plastic bottle, cover, and shake.

*Hint - Reuse your "Downy" bottle.

Recipe #2

- 2-3 Cups Water
- 1 Cup Liquid Fabric Softener
- Large Sponge

Combine water and liquid softener. Cut sponge in 1/2 and keep in liquid. When drying clothes, remove sponge, squeeze out excess liquid and place in dryer with clothes. When dry, just place sponge back in liquid to be used for next load.

You can also use these products alone to soften:

- Plain White Vinegar - Add 1/2 cup to final rinse.
- Baking Soda - Add 1/4 cup to final rinse.
- Regular Fabric Softener - Dilute and use normally.
- Hair Conditioner or Cream Rinse - Pour 1 tablespoon into damp washcloth and toss in with clothes.
